In these situations, the Bank will restore the debited payment account to the situation in which it would have been found if the unauthorized payment operation had not been carried out. The repayment shall be made immediately or at the end of the next working day, after the day on which the Bank has identified or has been notified with regard to such operation, unless it has reasonable grounds to suspect that the payer has acted/acts in a fraudulent manner.

a) By the mutual consent of the Bank and the Client, taking effect in maximum 30 working days;

b) By the Bank, **in case:**

- b.1.** The Client does not submit the documents requested by the Bank in due time, within the term mentioned by the Bank, upon the review of the account or in any other situation established by the Bank and communicated to the Client;
- b.2.** The Client has caused damages to the Bank, has provided false information to the Bank, has proved to be involved in frauds, money laundering or terrorism financing operations, is involved in public scandals and the relationship with the Bank may damage the latter's reputation;

3.9.2. Following the termination of the business relationship, in any of the abovementioned situations, the Bank shall close all the Client's accounts, as well as the related products/services and shall stop crediting the accounts with the interest, while any credit balance of the Accounts at such date shall be transferred and maintained by the Bank on a special non-interest-bearing account until a potential transfer of the amounts in accordance with the Client's instructions or upon the heirs' request, in accordance with the provisions laid down in Article 3.9.1, within the limitation period.

The Bank shall not be held liable for any damages that the Client may incur due to the closing of the accounts and of the Client's products/services from the Bank, as specified above.

3.9.3. In all the business relationship termination / account closing cases, the limitation period during which the Client/heirs may claim the return of amounts, representing the credit balance of the account at the account closing date, is 5 years, and shall begin to run from the date on date on which the holder is notified to this effect by registered letter with acknowledgement of receipt. For every cumulated consecutive contactless transactions without authentication, via the same card, the value of which exceeds the amount of EUR 150 or the equivalent in the card currency, the input of the PIN code/Client’s authentication is mandatory even for small-value transactions.

Not included in the EUR 150 limit are those contactless transactions (included without limitation) made at an unassisted terminal within the European Economic Area for transport or parking tickets, as well as those made at a contactless terminal outside the European Economic Area.

3.1.11. The Bank has the right not to apply the strict client authentication for an low-risk Internet transaction. The risk level is determined based on the transactional profile of a card holder, which considers several parameters such as the amount, currency, retailer’s country, repeated transactions at the same retailer, to an agreed beneficiary, transactions from the same device, with the same declared cardholder name, phone, e-mail address, delivery address, etc. The Bank may also waive strict customer authentication if this is not technically feasible. In such cases, the provisions of Chapter VI shall apply accordingly.

3.2. When performing operations of cash withdrawal or buying goods and services using the card, the cardholder/user must:

3.2.1. Before the initiation of a card payment transaction, the card holder/user may request and obtain additional information from the retailer regarding the purchased goods/services and, if applicable, the delivery terms and conditions. The Bank shall not be held liable for possible damages incurred by the Client as a consequence of nonconforming products and/or services provided by the retailer or of the retailer's practices. Likewise, upon the performance of the payment operation, the card holder/user must check the correctness of the transaction elements (transaction amount, transaction currency, retailer's name) before authorizing the transaction by entering the PIN, 3D Secure security code and the static password or before authorizing the transaction from the payment application in which the card is enrolled. The Cardholder/Card User understands and accepts that the currency indicated in the SMS containing the security code or in the transaction authorization screen of the BTPay application may be different from the currency of the account attached to the Card.

3.2.2. Request a copy of the sale receipt from the seller or withdrawal receipts from ATMs, as proof of the performed operations. Such copy will be kept by the cardholder/user in order to verify the monthly account statements and also to solve any complaints related to the incorrect recording of card operations in the account statement.

3.3. The cardholder/card user must keep the card safe and secure and prevent damages to the card, not transmit or reveal and take all the necessary measures to prevent the use of the card or the data on the card and the related security features (PIN, CVV/CVC security code, 3D Secure security code, static password set for online payments, code received by SMS for registration of the card in payment applications, method of securing the phone, etc.) by other persons not authorized to use the card. Thus, the Client undertakes:

- (i) to take all the measures to ensure the security of the card in order to protect it against loss, damage, theft of the physical card or the unauthorized access to the data stored on it;
- (ii) not to provide the physical card to other persons and not to keep the activation/PIN code and the card in the same place.
- (iii) not to provide the card details (name, card number, expiry date, CVV/CVC)/activation/PIN code/3D Secure security code / static password for online payments/ one-time code received in the SMS for card enrollment in the BT Pay application or other payment applications/ security method of the device on which the payment application is installed, and not to disclose such data to other persons upon the oral or written request or by accessing certain links received in e-mails or other means of communication (the Bank shall never request card-related data/information - card number, PIN, CVV/CVC or passwords and codes of any kind - for the update of the data / access to the account / etc.);
- (iv) to keep the identification data of the card in a manner that cannot be easily recognized and accessed by any unauthorized persons;
- (v) not allow the use of the device on which the payment application(s) used to make payments/transfers or to authorized online payments by and/or assisted by third parties, , as applicable (including by granting access to/control over the device through software/applications that allow remote access to/control over the device) and to take all the necessary measures to prevent such use/access.

Whenever the card holder/user notices the loss or theft of the card/mobile phone/device on which a payment application is installed or the use of the card in unauthorized transactions, the card holder/user will proceed as follows:

3.3.1. Communicate this fact by phone, without undue delay, to the Cards Call Center of Banca Transilvania, phone number 0800 80 2273 (0800 80CARD), toll free in any telephony network in Romania or 0264 594337, chargeable phone number that can be used from abroad, as well. The card will be therefore temporarily or permanently blocked in the authorization system in accordance with the bank's procedures in this respect. It is advisable to save these numbers in the phone's memory or to write them for emergencies. The card can also be temporarily or permanently blocked via the BT24 Internet/mobile banking service/Neo BT/ BTPay payment application, available 24/7, if the Client has

subscribed to this service or in person, at any unit of the Bank in order to urgently request the blocking of the card. The card is locked once the Bank has operated the blocking measures, and the operation is confirmed to the Card holder/user according to the latter's request.

3.3.2. The cardholder Client will come to the nearest BT unit as soon as possible and will fill in a standard card/PIN re-issuance form. In order to reissue the cards lost / stolen and issued in the name of the card user, the card re-issuance form shall be signed both by the card account holder and the card user.

3.3.3. If, after complaining about any loss or theft, the cardholder / card user recovers the respective card, he/she must return the card to any BT unit without delay. The Bank's representatives shall conclude a delivery-receipt protocol for the card, whereby a counterpart of such protocol shall be handed over to the card holder / card user. A card that is declared to the Bank as lost/stolen cannot be reactivated if the card holder/user regains possession of the card, due to the risk of the card data being compromised.

3.3.4. If unauthorized transactions are performed with the card after the theft/loss of the card/mobile phone/ device on which the payment application is installed, as well as if the card details are used in a fraudulent manner (including as a result of granting access/control of the device via software/applications allowing remote access to/control of the device), besides the obligation to inform the Bank, and upon the Bank's request, the card holder must also refer the matter to the criminal prosecution bodies, as soon as possible and provide the Bank with the proof of the complaint filing/transmission and with any other documents and/or information held with regard to the disputed transaction, in maximum 15 days as of the initial complaint made in accordance with Article 3.3.1.

3.3.5. If the obligations expressly set out under Articles 3.3, 3.3.1 and 3.3.4 are not met, it is considered that the Card holder/ user has acted in bad faith and/or with gross negligence and shall fully bear the financial losses pursuant to the applicable legal provisions, whereby the Bank is exonerated from any liability.

3.4. With transactions carried at the Bank's terminals, the approval of the transaction and the debiting or crediting of the account related to the card with the amount of the performed operations occurs in real time. The operation is recorded on the client's account, as follows:

- exactly on the operation date, for operations performed from Mondays to Saturdays, between 9 am and 7 pm;
- on the first banking day if the operations are performed outside the previously mentioned time span, also considering the day-closing time in the Bank's system.

3.4.1 The payment of utility invoices at **BT ATMs** or **BT Express Plus** is possible with a card issued by the bank. When performing a utility payment operation at the ATM or BT Express Plus, the payer, i.e. the holder/user of a card issued by the Bank, shall follow the steps below in the menu of the teller machine:

- the payer inserts the card with chosen for the payment in the machine, and follows the authentication steps;
- he/she selects the specific option for invoice payment from the machine's menu;
- the payer selects the desired supplier from the list of suppliers for whom such payment is available;
- the payer enters the necessary data for the specific payment to the selected supplier, making sure that the entered data are correct. The responsibility for complete and correct data, necessary to make the payment to the selected supplier, rests entirely with the payer.

The Bank shall check the available funds on the client's account upon the completion of the invoice payment transaction and the transaction is authorized only if there are sufficient available funds on the account related to the payment card.

The bank authorizes the transaction, the amount is frozen on the card account, and no longer available to the customer for further use.

At the end of each banking day, in order to process the payment and transfer the amount of the payment to the utility provider, the Bank checks that the Client has complied with the instructions regarding the entered data, and that the payer has entered the complete data requested by the provider and in the format

accepted by the provider. The content and structure of the data requested by each provider is specific to such supplier and is communicated by each utility provider to its own clients, through the specific communication channels established with them. The bank shall not be held liable for this communication between the utility provider and its clients.

- If the data entered by the Client are complete and correspond to the format requested by the provider, the amount is debited from the client's account (by eliminating the frozen amount from the same account), respectively transferred to the provider. The responsibility for the processing of the collection of the invoice amount in the provider's records falls entirely with the provider, and the Bank has no control and responsibility in this regard. The update of the payer's client account in the provider's records, and the communication of the new account standing to the Client occur in accordance to the provider's procedures, independent of the Bank's will and control.
- If the data entered by the Client are not complete and/or do not correspond to the format requested by the provider in order to accept the collection of the invoice (for example, but not being limited to, inconsistencies between the selected supplier and the invoice details entered by the payer), the payment cannot be processed. The amount frozen on the Client's account is released and returned to the Client's account. The Client is notified in this regard by SMS on the mobile phone number communicated by the Client as contact telephone upon the enrolment / update of the Client's personal data. If the payer has not provided the Bank with a mobile phone number, the bank does not have the possibility to send the notice.

The bank is not held responsible for the failure to process the payment in any situation in which the Client selects a provider other than the one to which the Client wants to pay the invoice, in situations where the data entered by the Client are not complete and/or do not correspond to the specific format requested by the provider selected by the Client, as well as for those cases when, for reasons independent of the Bank's will, the SMS cannot be sent (for example the failure of the communications lines for text messages for reasons independent of the Bank's control, the failure of the Client's phone, the impossibility of the Client's phone to receive text messages, the failure to deliver messages as a result of the Client's failure to communicate the change of the mobile phone number to the Bank upon the update of his/her personal data).

3.4.2 Payments to third parties at **BT Express** machines is possible with a card issued by the Bank or with cash, depending on the beneficiary of the payment. Payments to utility providers are made only by bank card.

The steps the payer must follow in order to carry out the payment transaction to third parties, at BT Express machine are:

- the payer scans the bar code on the invoice issued by the utility provider / company to which the payment is to be made;
- based on the bar code read by the device, it automatically identifies and displays on the screen the beneficiary of the payment;
- the payer verifies if the identified provider (displayed on the machine's screen) is the one to whom the payment is to be made. By going to the next step in order to make the payment represents the payer's confirmation that the identification is correct;
- If the bar code also includes information about the payment amount, this is taken over from the invoice by reading the bar code and is displayed on the machine screen;
- The payer checks that this amount corresponds to the amount he/she wants to pay:
 - If the amount taken over from the bar code does not correspond to the amount that the payer wishes to transfer to the issuer of the invoice and if the supplier/company to whom the payment is to be made allows for this feature, the payer can modify it by using the machine keyboard;
 - Likewise, if the amount is not taken over from the invoice by reading the barcode, and if the supplier/company to whom the payment is to be made allows for this feature, the payer can enter the amount by using the machine keyboard;

Going to the next step this represents a confirmation that the payment amount is the one that the payer wants to transfer to the invoice issuer;

- The payer selects the desired payment method, depending on the machine's capabilities and the provider type: BT card or cash; - the payment is completed.

For payments made by cards issued by the bank:

- The Bank shall check the available funds on the client's account upon the completion of the invoice payment transaction and the transaction is authorized only if there are sufficient available funds on the account related to the payment card.
- The Bank authorizes the transaction and the amount is automatically debited from the card account;

At the end of the day the bank sends the information related to the payments made, in a format agreed with the providers.

The update of the payer's client account in the provider's records, and the communication of the new account standing to the Client occur in accordance to the provider's procedures, independent of the Bank's will and control.

3.5. The approval of a transaction performed at the terminal of another acquiring bank determines the immediate freezing of the related amount on the account attached to the card, in order to prevent the use of the same amount for other operations on the attached account. The frozen transactions (pending for settlement) are highlighted on the account statement as "Pending Transactions". An amount frozen after the approval of the transaction cannot be held from settlement under any circumstances, because it represents the guarantee to the acquiring bank that it will collect the money released by its ATM or for services / goods sold by the merchant at the transaction date. The settlement of an amount is initiated by the merchant/acquiring bank accepting the transaction, which requests the collection of the amount by sending the file with the performed transaction to Visa/Mastercard that automatically reconciles the amounts between the banks participating in the transaction (the card issuer and the card acquirer). The reconciled amount is automatically debited from the card account used for the payment, once the Bank receives the transaction files from Visa/Mastercard. Consequently, the Bank cannot stop any settlement transaction nor can they request the settlement of a transaction at the request of the card holder.

3.6. The Client agrees to pay any charges caused by the use of the card in certain situations/relations with certain merchants such as, but not limited to:

3.6.1. The merchants provide the possibility to make off-line transactions, without freezing the payment amount. When such payment operations are recorded, the equivalent of the transaction is directly sent for settlement by the acquiring bank (the one owing the terminal where the payment was made), and the issuer debits the card account with the related amount. Off-line payment operations are evidenced as "*Pending transactions*", and can lead to debits on the card account if there are not sufficient available funds on the card account at the settlement date.

Transactions carried out offline by merchants who practice carrying out such transactions by the nature of their business without reserving the amount for payment by blocking it. When such payment operations are recorded, the equivalent of the transaction is directly sent for settlement by the acquiring bank (the one owing the terminal of the merchant where the payment was made), and the issuer receives the transaction for clearing automatically and, in its turn, automatically debits the card account with the related amount. Offline contactless payment operations are evidenced as "*Pending transactions*", and can lead to debits on the card account if there are not sufficient available funds on the card account at the settlement date.

3.6.2. The transactions related to certain fields of activity (e.g. hotel booking, car rental, etc.) where the transaction could be processed by the retailer before, during or after the provision of the services based on the card details supplied by the client at the time of the booking and under the contractual terms and

conditions agreed by the parties of such a contract. In the case of such transactions there is a possibility that the settled amount may exceed the amount originally authorized.

3.6.3. Transactions related to certain fields of activity (e.g. automatic petrol stations) which involve checking the validity of the card by initially blocking a small amount, followed by the settlement of the amounts related to the products/services purchased, in which case the amount settled may exceed the amount initially blocked.

3.6.4. Exceptional situations in which, in order to ensure the continuity of the card payment service, payment organizations authorize transactions instead of the Bank (e.g. in the event of temporary communication breakdowns between the Bank and these organizations). In these cases, transactions are authorized without checking the status of the card, the balance on the account at the time of the authorization and without blocking the amount of the transaction, which may lead to unauthorized debits.

3.6.5. Situations where amounts relating to the sale of goods/services are sent for settlement by merchants after the automatic release of the amounts reserved for payment on the card account.

In these situations, the transactions shall be debited using any amount available at the settlement date, and the negative difference between the transaction amount and the amount covered from the available funds shall be registered as unauthorized debit on the card account.

3.7. The actual debiting of the account attached to the card with the amount of the operation performed at the terminal of another bank takes place automatically at a later point in time, when the settlement file for the respective transaction is received from Visa/Mastercard. The transaction is recorded on the client's account at the time when the Bank receives the transaction for settlement.

3.8. The card-related account is debited with the equivalent of the transactions performed in other currencies when the settlement file is received, by converting the settlement currency specific to the used card into the account currency.

3.9. Entering the activation / PIN code incorrectly for three consecutive times during the validity period of the card will block the card and the card will be captured by the terminals with such capability.

3.10. The card account can be credited either by cash depositing at any Bank unit / terminal with depositing functionality, or by bank transfer. If the Cardholder / User makes a payment to the Bank, it shall be considered upon the receipt of the amount on the card account. If the Cardholder has a current account opened with Banca Transilvania, he/she can request the crediting of the card account by direct debit.

3.11. The Bank may establish limits in terms of amount and/or number of transactions for card operations, limits that are communicated to the Client holder / user upon the issue of the card. The Card holder / user may request the Bank (through specific forms in the Bank's units, by calling the Call Center or through the options in the Internet or mobile banking application/BT Pay contactless payment application) to change the limits, both for the card issued under his/her name and under the name of a user. This request shall be analyzed by the Bank and the decision shall be communicated to the Card holder/user in one working day.

3.12. For security reasons, in order to prevent the fraudulent use of the card, the Bank may monitor the card operations performed by the Card holder/user and may restrict them based on certain criteria (certain countries, currencies, merchants, fields of activity, behaviors, etc.). The Card holder/user has the possibility to request information in the Bank's units or at the Bank's Call Center about the existence of any restrictions that could prevent the use of the card or, under certain circumstances, may request the cancelation of such restrictions for a certain period of time, however under his/her sole responsibility and assuming possible unauthorized transactions that would have otherwise been rejected by the restrictions put in place by the Bank in order to protect its card holders.

4. BANK'S RIGHTS AND OBLIGATIONS

4.1. Banca Transilvania, the issuer of the debit and credit cards for retail clients, has the following rights:

4.1.1. To request from the cardholder/user a copy of the receipt for the purchase of goods, services or cash withdrawal, as well as the copy of the reversal receipt, or any other document, piece of information or action that may help the Bank settle erroneous operations recorded in the account statement and challenged by the cardholder/user.

4.1.7. If the Client's account is credited via the card and such operations cannot be justified by the operations performed with the card, the Bank may freeze the related amounts for investigation of the nature and origin of the received funds, until the situation is clarified.

1. **4.1.8.** To notify the client, through SMS messages sent to the phone number provided by the Client in the request for the issue of the credit/debit card, or, as applicable, to the phone number modified by the client for such card, with regard to situations, including without limitation: card activation code, upcoming date of the card expiry and reissue upon expiry, the possibility to pick up the card from the BT unit or to have it delivered by courier, subject to the client's express request and the payment of the related shipping costs, etc.

4.1.9. To charge a fee according to the bank's decisions with respect to the payment refusals initiated by the card holder / user and solved unfavorably.

4.2.4 a. To provide the Card holder with monthly account statements reflecting all the performed operations. The account statements shall be made available to the card holder and/or user as agreed with the bank. If the cards are issued in the name of users, the account statement will be made available only to the account owner and cardholder, unless such holder entitles the card user to request account statements for its current account.

b. For debit cards attached to the individuals' current accounts / Increased Current Account in Euro (for MasterCard Direct attached to it), the account statement corresponds to the summary current account statement available at the bank's units, as hard copy, free of charge (for the month prior to that in which it is generated). If the card holder is also a user of the Internet Banking application, the account statements may be accessed via this application (for free, with no extra costs for viewing account statements).

c. In the case of credit cards for individuals, monthly statements shall be sent to the cardholder in the manner agreed with the Bank: (i) free of charge, at the Bank's head office (for the month preceding the month in which it was generated); (ii) as well as and/or by electronic means of communication (e-mail or via Internet Banking applications in the case of credit cardholders who are also users of these products offered by the Bank, etc.)/by post (on paper), for a fee, at the cardholder's domicile address. If, for reasons outside the control of the Bank, the cardholder does not receive the monthly card account statement in a timely manner, he/she must inform the Bank on the due amounts in time, in accordance with the agreed contractual provisions.

4.2.5. To inform the cardholders/card users on any modifications related to commissions, charges or terms for card issue and use by displaying them at the bank units and/or publishing them on the bank's web site.

(a) In case of changes in the contract provisions and / or clauses, the Bank shall notify the Card holder and the holder shall reply in two months with regard to the acceptance or rejection of the new conditions. If the Card holder does not send its option to the Bank in two months days, the amendments are deemed tacitly accepted by the Card holder.

(b) In the event of changes in fees and commissions, the Bank shall notify the Cardholder Client by electronic means of communication (e-mail, SMS, etc.) and/or on paper under the terms and conditions provided for by the legal provisions in force. The notification of the client with regard to the modifications made by the Bank for the card costs as payment instrument shall take place at least two months before the enforcement of such modifications. If the client does not accept the proposed modifications, he/she must inform the Bank in this respect, until the working day prior to their enforcement, along with the payment of the possible debits resulting from the use of the card, its fees and taxes, within 15(fifteen) days as of the notification of rejection of the Bank's conditions.

5.2. The cardholder/user has the following obligations:

-**fees and commissions** due to the bank and charged for the use of the card.

c. In case of registered debits (i.e. amounts not covered by the amounts available on the account to which the card is attached, resulting in an unauthorized increase of the Cardholder's payment obligations to the Bank), the Bank will charge a penalty fee for reaching the debit balance, applied to the amounts exceeding the available balance.

d. If the Client does not proceed to cover these debts (including by justifiably submitting a payment refusal to recover the amounts from the merchant), the Bank is entitled to initiate the recovery of the amount from the accepting bank/merchant, within the limits and in accordance with the regulations of the Card Organizations. The Bank shall not be liable for any inconvenience caused to the Cardholder / Card User as a result of taking these steps.

5.2.5. Transactions in a currency other than the card currency

For card transactions in a currency other than the account currency, the exchange rates published by the bank on its website www.bancatransilvania.ro, under the dedicated section, shall be used.

If transactions are carried out in a currency other than that of the card (the account currency), the card holder shall pay from the funds available on its current / card account in lei (for credit cards and the following debit cards): VISA ELECTRON/VISA CLASSIC, Mastercard Mondo Mastercard Gold Debit, Mastercard World Elite and Mastercard Banca Transilvania OmniPass), and/or the EUR current account (for Mastercard Direct) the equivalent of the performed operations and of the generated charges.

The foreign exchange operation from the transaction currency to the account currency shall be made at the sell/buy exchange rate, depending on the transaction, applied by the bank for card transactions and/or by the International Payment Organizations under the logo of which the card is issued (Visa/Mastercard). Depending on the currency of the initial transaction and the region where the transaction is made, the conversion from the initial currency to the account currency may imply the conversion through the settlement currency of the bank with Visa (USD) for Visa cards, respectively the settlement currency of the bank with MasterCard (EUR/) for Mastercard cards, in which case the FX operation from the initial currency to the settlement currency with the International Payment Organization is automatically made by the International Payment Organization under the logo of which the card has been issued.

The exchange rate applied by the bank for card transactions is communicated to the clients through the bank's website, www.bancatransilvania.ro, and can be viewed when the client is about to make an operation that implies an FX operation. The exchange rate applied by the Bank at the transaction settlement date may be different from the exchange rate at the transaction authorization time.

The exchange rates applied by the International Organizations under the logo of which the card has been issued (VISA/MasterCard) can be viewed in their web pages, under the dedicated section.

The Bank ensures the transparency and comparability of the FX fees, if the Card Holder/User withdraws cash from the ATMs or makes payments at retailers in the European Union (EU). Thus, for such transactions made in EUR or another national currency of an EU member state, other than the account currency, the Bank's website shall provide the applied exchange rate, expressed as margin added to the most recent reference exchange rates published by the European Central Bank (ECB).

In these situations, the Bank will restore the debited payment account to the situation it would have been in if the unauthorized payment operation had not been carried out. The repayment shall be made immediately or at the end of the next working day, after the day on which the Bank has identified or has been notified with regard to such operation, unless the Bank has reasonable grounds to suspect that a fraud is/ has been committed by the Holder/User.

6.1.5. In the case of an incorrectly executed transaction, if the User/Holder has initiated the dispute procedure within the time limit provided for in Article 6.1.1., if the Bank is liable for the incorrect execution of the payment transaction, it shall return the amount of the payment transaction to the payer without undue delay and, if applicable, restore the debited payment account to the state it would have been in had the incorrect payment transaction not taken place.

6.1.6. The amount of damages for which the Bank is held liable shall be limited to the value of any transaction not executed or improperly executed, respectively not authorized by the holder / user, as well as the related fees, commissions, interest (if the holder/user also has a credit card for the related card account, based on a Credit card agreement / Current account credit line agreement) charged by the Bank until the indemnification date, in compliance with the applicable legal provisions.

6.1.7. The payment refusal does not mean that the transaction is cancelled or stopped from being settled. The provisions of Article 3.5. on the impossibility to stop the settlement of the transaction shall apply accordingly.

6.1.8. Until the blocking of the payment instrument according to Article 3.3.1, the Holder/User is directly liable for all the performed card operations, and he/she shall bear the related loss up to the limit of the RON equivalent of EUR 30 (thirty euro), at the NBR exchange rate applicable on the day of the operations claimed to be unauthorized. The Holder/User shall be fully liable in the event that it has acted fraudulently, in bad faith or has willfully or grossly negligently failed to comply with one or more of its obligations under these General Terms and Conditions. The liability of the Holder/User is assessed especially under consideration of the nature of the customized safety elements of the payment instrument/device on which

6.2.2. The Holder/User understands and accepts that the dispute initiated under this Article 6.2 does not represent a guarantee on the part of the Bank to recover the amounts of the disputed payment transaction(s) and declares that, in the event of an unfavorable resolution of the initiated payment refusal, it shall not pursue the Bank for the recovery of the amounts of such transaction(s). The payment refusal does not mean that the transaction is cancelled or stopped from being settled. The provisions of Article 3.5. on the impossibility to stop the settlement of the transaction shall apply accordingly.

6.2.3. The Holder / User understands and accepts that payment refusals initiated under the provisions of this Article 6.2 shall be dealt with in accordance with the internal regulations and the regulations of the Visa / Mastercard Card Organizations, subject to the specific deadlines and procedures set out in these regulations. For this purpose, the Bank may request different information and documents from the Holder / User and/or may request the Holder/User to carry out certain actions meant to help with the resolution of the payment refusal.

6.2.4. As per the provisions of Article 6.2.3, the Holder / User / shall initiate the payment refusal within 90 days from the transaction date, so that the Bank can analyze the refusal and obtain from the Holder/User all the documents and information necessary to initiate the proceedings for the recovery of the amount on his/her behalf, within the time limits provided for in the regulations of the payment organizations.

6.2.5. The Holder/User understands that the time limit within which the Bank may initiate the recovery proceedings on behalf of its clients is a general time limit, provided for in the Visa/Mastercard Card Organizations' regulations, and that there may be specific situations where, depending on the specifics of the transaction, different time limits may apply. The Holder/User understands that these deadlines may differ for reasons not attributable to the Bank and he/she undertakes to check the account statements immediately upon receipt, in accordance with the provisions set out in the general part of these General Terms and Conditions, in order to be able to dispute the transaction by means of a payment refusal as soon as possible after becoming aware of it. If the Holder/User exceeds the deadline for disputing the payment transaction, he/she shall exonerate the Bank from any liability.

6.2.6. Once a dispute (payment refusal) is initiated in the Visa/Mastercard systems at the request of the Holder/User, such dispute can no longer be cancelled and it shall follow through in accordance with the regulations of the Card Organizations.

For transactions performed at the Bank's ATMs, POSs installed at the Bank's counters and at retailers, as well as the virtual terminals (e-commerce) owned by the Bank, the answer regarding the resolution of the

payment refusal shall be communicated to the Holder/User no later than 30 (thirty) working days as of the registration of the payment refusal.

For settled transaction performed at the terminals of other banks, the Bank shall provide the Holder/User with the answer regarding the resolution of the payment refusal no later than 120 days as of the registration of the payment refusal, as this is the time period required for the recovery proceedings in accordance with the regulations of the Card Organizations. If the answer does not account for a final solution, the resolution period is extended according to the applicable national and international rules and regulations regulating card transaction disputes, while informing the Holder / User about the new status of the refusal and on the maximum estimated resolution term.

6.2.8. If the amount of a disputed payment operation is frozen on the Client's account at the time when the payment refusal is initiated, a possible early release of such amount at the Card Holder's/User's request does not rule out the possibility of a subsequent settlement of the amount related to the payment operation. In the case of the subsequent settlement, in order to restore the debited payment account to the situation it would have been in had the payment operation not been made, the proceedings for the recovery of the amount from the merchant / acquiring bank shall be initiated at the client's request, and the Client's account shall be credited with the amount debited after the settlement when the undertaken proceedings are successfully completed.

6.2.9. If the funds cannot be recovered, the Bank shall provide the Holder/User with all the available information that could be used in court for the recovery of the funds from the merchant.

6.2.10. If the payment refusal is unfounded, it shall receive an unfavorable resolution and the related fee shall be charged in accordance with the applicable *List of fees and commissions*.

The Bank reserves the right to report the Card holder /user who has acted in such manner, to the responsible institutions and authorities, not to issue another card and to withdraw any other cards issued by the Bank to the Card holder /users.

7.2. If there are suspicions of using a card without the holder's/ user's knowledge or consent, in order to protect him/her and to avoid or to limit any losses, the bank may take the following measures without any prior notice to the card holder/user:

7.5. Each party has the right to request the unilateral closing / termination of the card and of the related product agreement with a written notice to the other party. The closing of the card / termination of the card agreement becomes effective after 30 (thirty) calendar days as of the receipt of the notice if the same is sent at the Card holder's initiative and two months if terminated at the Bank's initiative. With regard to the credit card, the client may request the closing of the card only if he/she has previously fulfilled all his/her payment obligations towards the bank, resulting from the Credit card agreement. In all cases, the termination of the agreement becomes effective only after the fulfilment of the cardholder's payment obligations towards the bank, and after the return of the card, respectively.

Likewise, along with the closing of the card/cards, the related product agreement is deemed terminated.

7.7. The closing of a Bank's product of the type of a debit/credit card does not absolve the Card holder/ user of the obligations assumed for the whole validity period of the credit/credit card, and of the related product agreements.

7.8. If the Card holder requests the cancellation of the credit card, the credit balance of the credit card account (i.e. the client's own amounts available on the card account) shall be made available to the client in 30 (thirty) calendar days as of the cancellation / notification date.

8. DURATION AND AMENDMENTS

Upon the expiry of the credit card(s) issued in the name of the user(s), it is automatically re-issued for new validity periods equal to the initial period, if at the respective date the holder's credit card is valid. In this case, the holder will bear the fees and commissions related to this operation.

In case of credit cards for which the bank has not granted a revolving credit line on the card account, the bank reserves the right to close the card, and not to extend the card agreement, if, following the review, the bank notices that during the previous past 6 (six) calendar months, there were no card transactions via ATMs and/or accepting retailers.

8.2. The Bank may change these clauses at any time, as a result of subsequent and imperative legal provisions that are likely to modify the **General terms and conditions for the use of debit & credit cards by individuals**, through a written notice to the Card holder, in compliance with the terms provided under Article 4.2.5 herein.
