

Banca Transilvania supplements the MREL eligible international bond issue with EUR 100 million

As a result of the high interest from institutional investors in the bond issue of [Banca Transilvania](#) in April this year, which shows their confidence in [BT](#), the bank has decided to supplement it, thus increasing Banca Transilvania Group's worldwide visibility.

The issue is increased by EUR 100 million and the bonds are MREL eligible.

Similar to the debut issue, the new bonds are listed on Euronext Dublin. The temporary ISIN code of the bonds is XS2631416448, to be replaced by the original listing code, ISIN XS2616733981, as of July 22 this year.

The bonds are eligible for the minimum requirement for own funds and eligible liabilities (MREL), contributing - according to European banking standards - to the permanent provision of an optimal level of funds, distinct from customer deposits which are guaranteed by the Bank Deposit Guarantee Fund.
